

Developing Creative Presentations

The following are steps you can take to develop a creative presentation:

1. What is your topic/title?
2. What is the purpose of your presentation?
3. Make a list of places or things that you think would teach a lesson about your topic?
4. For each of the items on your list, write down its attributes. What are its positive and negative points?
5. After prayerful consideration, choose the place or thing that would best be suited to teach the purpose of your topic.
6. For your chosen place/thing, what can you use to make your presentation more visual?
7. What unique story or stories can you find to enhance the main point of your presentation? (Stories can be from the Bible, personal experience or from the news.)
8. Find Bible verses that will support your topic and its lessons.
9. Make a list of your key points (lessons) for this topic.

When developing creative presentations, keep the following key truths in mind:

- Encourage one another (Hebrews 3:13)
- Pray for one another (James 5:16)
- Build up each other's faith (1 Thessalonians 5:11)
- Teach one another (1 Timothy 4:11)
- Nurture one another (1 Corinthians 12:25)
- Forgive one another (Colossians 3:13)
- Love one another (1 Thessalonians 3:12)
- Demonstrate the Fruit of Spirit with one another (Galatians 5:22-23)

When we study the life of Jesus, we learn how He modelled creativity and thus we can follow His example as a creative leader and teacher.

- He taught valuable lessons using parables
- He spoke from unconventional places such as boats, hillsides and beaches
- He used common items of His day as visuals to illustrate spiritual lessons such as a vine, fig tree, coin, etc.
- His teachings were never boring but full of questions and motivated deep heart searching
